WE WILL TELL BLACK CONSUMERS TO SUPPORT YOU ON A REGULAR BASIS! OUR BLACK BUSINESSES NEED TO SURVIVE. AND WE WILL HELP YOU!

OUR MISSION - BlackMissouri.com will serve as a way to close the gap between Kansas City and St. Louis and all destinations in between. The largest black populations in our state are in Kansas City and St. Louis, on complete opposite sides of our state. This problem is unique in that black people who are visiting our state usually travel to one or the other metro areas to conduct business or experience black culture but rarely travel through the state of Missouri to get to either. Blacks that live in the metro areas are not familiar with black businesses, black culture, black history in smaller communities because this information is not readily available. There is a misconception that there is nothing to do in smaller towns or that smaller communities do not welcome blacks. There are many blacks that live in smaller yet growing communities in southeast, southwest and mid-Missouri but they do not have access to the traditional black media in larger cities like the black newspapers, black pages, or black radio stations. So BlackMissouri.com will help solve all of these problems making it easier for blacks to network, communicate, and conduct business.

It's time we get on track and on the Internet because there is work to be done and business to be had! BLACKMISSOURI.com is the DIGITAL UNDERGROUND RAILROAD!
